

Facility Generated Data

Paper Records

- A treasure trove of data is generated by a long term care facility each day.
- Presently, this data is stored on paper records.

Facility Generated Data (continued): Paper Records

- Paper records cannot be easily or efficiently utilized to obtain real time data that may be needed by decision-makers.
- Facility data can be captured by software and stored in electronic records.

Facility Generated Data (continued): Electronic Records

- Electronic records can be utilized with the help of just a few mouse clicks or key strokes to generate real time reports.

Just Lee Convalescent Center
Employee Information
Ms. Beth Adeb

Department: Nursing
Job Title: CNA

Employee #: 3363

In-Service Training

<u>Topic</u>	<u>Train Date</u>	<u># of Hours</u>	<u>Date Completed</u>
ADL'S Providing Care	04/09/2004	1.0	04/09/2004

Notes: Equipment Used:

Demonstration:

Demonstrated By: Bill Beckley

Facility Generated Data (continued): Electronic Records

- Almost all facility information can be captured electronically and instantly available for use by the various departments.

The screenshot shows a software window titled "Resident File - Hazel V. Ahola". The window contains several input fields and a table. At the top, there are fields for "Prefix" (Mrs.), "First Name" (Hazel), "M.I." (V), and "Last Name" (Ahola). Below these are tabs for "Resident Info", "Medical Info", "Diagnosis", "Responsible Party", "Power of Attorney", and "Adv. Dir.". The "Diagnosis" tab is active, showing a table with columns "Last Update", "Chart", and "Diagnosis". The table has one row with data: "08/31/2007 01:36 PM", "Yes", and "Right Femoral FractureII". Below the table, there is a "Diagnosis:" field with the text "Right Femoral Fracture" and an "Add Diagnosis" button. At the bottom, there are fields for "Code:" (820.6), "Update By:" (Dr. John Jones), and "Last Update:" (08/31/2007 01:36 PM). There are also buttons for "Show Available Rooms", "Move Off Campus", "Save", and "Cancel".

Last Update	Chart	Diagnosis
08/31/2007 01:36 PM	Yes	Right Femoral FractureII

Facility Generated Data (continued): Electronic Records

The example on the previous slide was a resident's diagnosis information.
